Historically Woodward made the Products available for purchase at 340B Ceiling Price through wholesalers. Woodward is committed to not only compliance with its obligations under the 340B Program but also to provide efficient and quality service to its 340B Covered Entity customers. As such, Woodward wanted to provide 340B Covered Entities sufficient time to transition to direct distribution of the Products via DCS at the 340B Ceiling Price. The Products remain available for purchase at the 340B Ceiling Price via wholesalers through March 31, 2023 at which time the Products will only be available at the 340B Ceiling Price through direct distribution via DCS.

It is important for 340B Covered Entities and their contract pharmacies to follow the steps below to register with DCS for purchasing of the Products at the 340B Ceiling Price as soon as possible.

To purchase the Products through DCS, an entity needs to register the eligible site(s) by visiting [www.directcustomersolutions.com](http://www.directcustomersolutions.com). Covered Entities using a Third-Party Administrator (“TPA”) to manage orders and inventory may continue to use their current system if that TPA has previously registered with DCS. Please check with your TPA to determine if it is already connected to DCS. If your TPA is not currently connected to DCS, contact us directly to facilitate the enrollment of your TPA, including Electronic Data Interchange (“EDI”) connectivity. Once registered, orders may be placed via EDI, online at [www.directcustomersolutions.com](http://www.directcustomersolutions.com), or by phone at (731) 693.1662.

If you have any questions regarding this process or how to access to these products, please contact our DCS Customer Service team at (731) 693.1662 or email [340b-clientservices@directcustomersolutions.com](mailto:340b-clientservices@directcustomersolutions.com).

Sincerely,

A handwritten signature in cursive script that reads "Ellen Gettenberg".

Ellen Gettenberg, SVP, Commercial
