## FormularyDecisions<sup>®</sup>

# Optimize your digital engagement strategy from a single platform

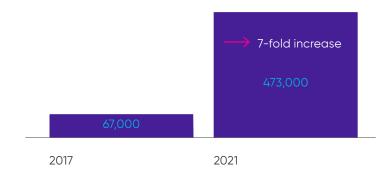

## What is FormularyDecisions®?

**FormularyDecisions** is a secure online platform that supports the exchange of information between healthcare decision makers (HCDMs) and biopharma companies. FormularyDecisions delivers real-time insights to understand perceptions about your product throughout its lifecycle.

## Why FormularyDecisions?

Digital communication is becoming an increasingly important component of a comprehensive HCDM engagement strategy. HCDMs surveyed agree that it is important for biopharma companies to include both traditional and digital channels when communicating product-based information. FormularyDecisions is reflective of this, as HCDM activity during the past 5 years increased 7-fold.

# Here is what a user is saying about FormularyDecisions!

"The team I oversee uses FormularyDecisions to find pertinent research instead of utilizing individual sites/web searches. Additionally, the dossier request tool is important – most of the team doesn't have a relationship with the pharma reps, so having a centralized place to request information is much easier than trying to track down a contact with individual manufacturers." Vice President, Medicare Part D, Pharmacy Benefits Manager (PBM)
