

# FormularyDecisions® enterprise subscriptions

Tailored healthcare decision maker (HCDM)  
engagement across your portfolio

HCDMs need real-time access to information about your products throughout their lifecycle. And you need to understand HCDMs perceptions of your products to inform market access and evidence generation strategies. Maximize digital HCDM engagement across your portfolio with a customized blend of strategic and tactical support with the FormularyDecisions enterprise subscription.

## Enterprise approach

### 1. Select product mix

### 2. Select the modules for each product

### 3. Customize strategic and tactical support

## Subscription support offerings

### Unparalleled flexibility

- Multi-year agreements provide subscription interchangeability and the flexibility to change product mix in 2nd year
- Expanded user access (ie, up to 200 users)
- Unlimited eDossier updates and conversions
- Multi-indication set-up and conversions

### White glove support

- Dedicated subscription engagement lead
- Insights reporting and strategic recommendations
- Consulting and support services
- Creative services team for content creation

### Additional value add-ons

- Access to additional platform features such as the Biosimilars Resource Hub
- Access to additional field templates and support materials

Plus, include additional offerings or services to meet the needs of your enterprise. Pricing is customized.

## Summary of subscription options

### Standard

- Subscriptions purchased on a per product basis
- Standard discounting available for multi-brand & module bundling
- FormularyDecisions supports initial subscription implementation and modules are primarily self-administered afterwards

### 1-Year Enterprise

- Expanded support includes dedicated subscription support team
- Expanded user access
- Access to additional platform features such as the Biosimilars Resource Hub
- Increased discounting over standard subscription offerings

### 2-Year Enterprise

- Product mix flexibility at the end of Year 1
- Lock in price for Year 2
- Additional discounting over 1-year enterprise

## Here is what your peers are saying about FormularyDecisions:

The team I oversee uses FormularyDecisions to find pertinent research instead of utilizing individual sites/web searches. Additionally, the dossier request tool is important – most of the team doesn't have a relationship with the pharma reps, so having a centralized place to request information is much easier than trying to track down a contact with individual manufacturers."

– Vice President, Medicare Part D, Pharmacy Benefit Manager (PBM)
