

# RecoverRx™ patient assistance

## Connecting patients to financial help

We understand that each patient's situation is unique. Some may have limited or no health insurance or struggle to understand their benefits and costs, leading to delayed treatment. Our RecoverRx™ patient assistance program can help. We offer a personalized approach to find and connect patients to financial assistance programs, enabling them to get on therapy quicker and achieve the best possible results.

### Health system-focused

- Drives saving and helps reduce bad debt
- Assists with navigation cost avoidance
- Supports reduced drug spend
- Serves patient settings within sites of care (infusion) and cancer center, offering the largest savings opportunity
- Offers seamless workflows and visibility through integrated technology across EMR platforms

### Advocating for your patient

- Supports better access to medication and reduces financial burden
- Assists with manufacturer programs, copays, foundation help, free products, and recovery of devices
- Enhances patient experience through management of service enrollment tracking, and logistics
- Aids improved patient outcomes through speed-to-therapy and treatment plan compliance
